

The Ten Planks of the Communist Party

By the Jewish Journalist "Mordechai Levi," via the nom de plume of "Karl Marx"

In the early 1960's during the days of the "former" Soviet Union, Russian Premier Nikita Kruschev pounded his shoe on the podium of the United Nations and shouted to the West, "We will bury you!" Fearing an invasion from the Reds, America proceeded to build the most awesome military machine in history. Unfortunately, we forgot to guard our political homefront from being taken over by socialist - communist - liberal activists who would gain office and destroy American law by process of gradually installing the Communist agenda within our legal system and separate branches of government.

The Communist program from the start has been one which sees their revolution of 1917 successful only upon total domination of the world. (See [Brain Washing, A Synthesis of the Russian Textbook on Psycho-politics](#)) Americans, being the most naive people among the nations, now believe that Communism is dead because the Berlin Wall and the Iron Curtain have been removed. The ironic truth is that Communism has just switched names to become more "politically correct".

Today it is called international democracy. The reason that the Berlin Wall came crashing down is not because Communism is dead but because they have achieved the planned agenda to communize the West, including America. Washington D.C. has indeed become part of the New World Order of atheist governments. With the last vestiges of Christian law having been removed from "American government" over the last twenty years, there is no longer a threat of resistance against world Communism. In reality, "American government" became part of the Iron Curtain, thus there was no more need for the likes of a Berlin Wall.

Once again, in their foolishness, the American public has believed the lies of their "leaders" who applaud "the fall of Communism", while they have sold out the country to anti-Christian, anti-American statutes and regulations on the federal, state, and local levels. Posted below is a comparison of the original ten planks of the Communist Manifesto written by Karl Marx in 1848, along with the American adopted counterpart of each of the planks. The American people have truly been "buried in Communism" by their own politicians of both the Republican and Democratic parties.

One other thing to remember: Karl Marx was stating in the Communist Manifesto that these planks will test whether a country has become communist or not. If they are all in effect and in force the country IS communist. Communism, but by any other name...??

1. Abolition of private property and the application of all rent to public purpose.

The 14th Amendment of the U.S. Constitution (1868), and various zoning, school & property taxes. Also the Bureau of Land Management.

2. A heavy progressive or graduated income tax.

Misapplication of the 16th Amendment of the U.S. Constitution, 1913, The Social Security Act of 1936.; Joint House Resolution 192 of 1933; and various State "income" taxes. We call it "paying your fair share".

3. Abolition of all rights of inheritance.

We call it Federal & State estate Tax (1916); or reformed Probate Laws, and limited inheritance via arbitrary inheritance tax statutes.

4. Confiscation of the property of all emigrants and rebels.

We call in government seizures, tax liens, Public "law" 99-570 (1986); Executive order 11490, sections 1205, 2002 which gives private land to the Department of Urban Development; the imprisonment of "terrorists" and those who speak out or write against the "government" (1997 Crime/Terrorist Bill); or the IRS confiscation of property without due process.

5. Centralization of credit in the hands of the State, by means of a national bank with state capital and an

exclusive monopoly.

We call it the Federal Reserve which is a credit/debt system nationally organized by the Federal Reserve act of 1913. All local banks are members of the Fed system, and are regulated by the Federal Deposit Insurance Corporation (FDIC).

6. Centralization of the means of communication and transportation in the hands of the State.

We call it the Federal Communications Commission (FCC) and Department of Transportation (DOT) madated through the ICC act of 1887, the Commissions Act of 1934, The Interstate Commerce Commission established in 1938, The Federal Aviation Administration, Federal Communications Commission, and Executive orders 11490, 10999, as well as State mandated driver's licenses and Department of Transportation regulations.

7. Extension of factories and instruments of production owned by the State, the bringing into cultivation of waste lands, and the improvement of the soil generally in accordance with a common plan.

We call it corporate capacity, The Desert Entry Act and The Department of Agriculture. As well as the Department of Commerce and Labor, Department of Interior, the Evironmental Protection Agency, Bureau of Land Management, Bureau of Reclamation, Bureau of Mines, National Park Service, and the IRS control of business through corporate regulations.

8. Equal liability of all to labor. Establishment of Industrial armies, especially for agriculture.

We call it the Social Security Administration and The Department of Labor. The National debt and inflation caused by the communal bank has caused the need for a two "income" family. Woman in the workplace since the 1920s, the 19th amendment of the U.S. Constitution, the Civil Rights Act of 1964, assorted Socialist Unions, affirmative action, the Federal Public Works Program and of course Executive order 11000.

9. Combination of agriculture with manufacturing industries; gradual abolition of the distinction between town and country by a more equitable distribution of the

population over the country.

We call it the Planning Reorganization act of 1949 , zoning (Title 17 1910-1990) and Super Corporate Farms, as well as Executive orders 11647, 11731 (ten regions) and Public "law" 89-136.

10. Free education for all children in government schools. Abolition of children's factory labor in its present form. Combination of education with industrial production, etc. etc.

People are being taxed to support what we call "public" schools, which train the young to work for the communal debt system. We also call it the Department of Education, the NEA and Outcome Based "Education". [Click here](#) to learn how it all came about and [here to see if YOU are a practicing Communist.](#)

Ten Planks of the Communist Manifesto

Karl Marx describes in his communist manifesto, the ten steps necessary to destroy a free enterprise system and replace it with a system of omnipotent government power, so as to effect a communist socialist state. Following are the original ten planks within the Communist Manifesto written by Karl Marx in 1848, followed by a discussion of how America has adopted each of the planks.

1. Abolition of private property and the application of all rent to public purpose.

The courts have interpreted the 14th Amendment of the U.S. Constitution (1868) to give the government far more "eminent domain" power than was originally intended. Under the rubric of "eminent domain" and various zoning regulations, land use regulations by the Bureau of Land Management property taxes, and "environmental" excuses, private property rights have become very diluted. As a result, private property in lands, vehicles, and other forms are seized almost every day in this country under the "forfeiture" provisions of the RICO statutes and the so-called [War on Drugs](#). Private owners of property are required to get permission from government relative to the use of their property.

2. A heavy progressive or graduated income tax.

The [16th Amendment of the U.S. Constitution](#), 1913 (which some scholars maintain was never properly ratified), the Social Security Act of 1936, Joint House Resolution 192 of 1933, and various State income taxes established this major Marxist coup in the United States many decades ago. These taxes continue to drain the lifeblood out of the American economy and greatly reduce the accumulation of desperately needed capital for future growth, business starts, job creation, and salary increases.

3. Abolition of all rights of inheritance.

Another Marxist attack on private property rights is in the form of Federal & State estate taxes and other inheritance taxes, which have abolished or at least greatly diluted the right of private property owners to determine the disposition and distribution of their estates upon their death.

4. Confiscation of the property of all emigrants and rebels.

We call it government seizures, tax liens, "forfeiture" Public "law" 99-570 (1986); Executive order 11490, sections 1205, 2002 which gives private land to the Department of Urban Development; the imprisonment of "terrorists" and those who speak out or write against the "government" (1997 Crime/Terrorist Bill); or the IRS confiscation of property without due process.

5. Centralization of credit in the hands of the state, by means of a national bank with state capital and an exclusive monopoly.

The Federal Reserve System, created by the Federal Reserve Act of Congress in 1913, is indeed such a "national bank" and it politically manipulates interest rates and holds a monopoly on legal counterfeiting in the United States. All local banks are members of the Fed system, and are regulated by the Federal Deposit Insurance Corporation (FDIC) another privately-owned corporation. The Federal Reserve Banks issue Fiat Paper Money and practice economically destructive fractional reserve banking. This is exactly what Marx had in mind and completely fulfills this plank.

6. Centralization of the means of communication and transportation in the hands of the State.

In the U.S., communication and transportation are controlled and regulated by the Federal Communications Commission (FCC) established by

the Communications Act of 1934 and the Department of Transportation and the Interstate Commerce Commission (established by Congress in 1887), and the Federal Aviation Administration as well as Executive orders 11490, 10999 -- not to mention various state bureaucracies and regulations including State mandated driver's licenses. Federal Highway Act of 1916 made federal funds available to States for highway construction), the Interstate Highway System, 1944 (funding began 1956); Interstate Commerce Commission given authority by Congress to regulate trucking and carriers on inland waterways, 1935-40. There is also the federal postal monopoly, AMTRAK and CONRAIL -- outright socialist (government-owned) enterprises. Instead of free-market private enterprise in these important industries, these fields in America are semi-cartels through the governments regulatory-industrial complex.

7. Extension of factories and instruments of production owned by the State, the bringing into cultivation of waste lands, and the improvement of the soil generally in accordance with a common plan.

We call it corporate capacity, The Desert Entry Act and The Department of Agriculture. As well as the Department of Commerce and Labor, Department of Interior, the Environmental Protection Agency, Bureau of Land Management, Bureau of Reclamation, Bureau of Mines, National Park Service, and the IRS control of business through corporate regulations. The Agriculture Adjustment Act of 1933 provided that farmers will receive government aid if and only if they relinquish control of farming activities.

8. Equal liability of all to labor. Establishment of Industrial armies, especially for agriculture.

We call it the Social Security Administration and The Department of Labor and it's seen in Minimum Wage and slave labor like dealing with our Most Favored Nation trade partner; i.e. Communist China. The National debt and inflation caused by the communal bank has caused the need for a two "income" family. Woman in the workplace since the 1920's, the 19th amendment of the U.S. Constitution, the Civil Rights Act of 1964, assorted Socialist Unions, affirmative action, the Federal Public Works Program and of course Executive order 11000. And I almost forgot...The Equal Rights Amendment means that women should do all work that men do including the military and since passage it would make women subject to the draft.

9. Combination of agriculture with manufacturing industries; gradual abolition of the distinction between town and country by a more equitable distribution of the population over the

country.

We call it the Planning Reorganization Act of 1949 , zoning (Title 17 1910-1990) and Super Corporate Farms, as well as Executive orders 11647, 11731 (ten regions) and Public "law" 89-136. Food processing companies, with the co-operation of the Farmers Home Administration foreclosures, are buying up farms and creating "conglomerates."

10. Free education for all children in government schools. Abolition of children's factory labor in its present form. Combination of education with industrial production.

Americans are being taxed to support what we call 'public' schools, but are actually "government force-tax-funded schools " Even private schools are government regulated. The purpose is to train the young to work for the communal debt system. We also call it the Department of Education, the NEA and Outcome Based "Education". The federal influence of education is evident in "head-start" programs, school lunch programs, textbooks, and library books. Our children are being indoctrinated and inculcated with the government propaganda, like "majority rules", and "pay your fair share". WHERE are the words "fair share" in the Constitution, Bill of Rights or the Internal Revenue Code (Title 26)? NO WHERE is "fair share" even suggested !! The philosophical concept of "fair share" comes from the Communist maxim, "From each according to their ability, to each according to their need! This concept is pure socialism. END
